

DOSSIER # 5018_03

Enterprise specialized in the wholesale distribution of industrial parts.

The business is located in Montreal and specializes in the wholesale of industrial parts serving US, Canadian and overseas manufacturers and distributors for more than 25 years. The main activity of the company is the wholesale distribution of plastic and metal clamping and strapping lines, plastic fittings and valves, as well as numerous related product lines. The owner now wants to sell the business to focus his time and effort on another existing business.

The majority of customers are original equipment manufacturers (OEM) and major distributors located in Canada and the United States. As the company distributes basic industrial parts with universal application (fluid treatment, ozone generation, pool accessories, automotive, traffic signs, plastic tank fabrication, etc.) in many industries, the growth potential is unlimited.

This is an excellent business opportunity for anyone with an interest in the field. If you have any questions, do not hesitate to contact us for any information at *CANADEST Business Brokers Inc.*
