Dealer of all-terrain vehicle (ATV), snowmobiles, motorcycles, and any other new or used motor vehicle.

This family business, founded in the early 90's, is located in eastern Quebec. It is a dealer specialized in the recreational motorized sports industry. It is the official distributor of prestigious brands of recreational sports vehicles.

The company is in full growth. In fact, over the past decade, the company has expanded and modernized with the construction of a new commercial building of over 7,000 square feet, which includes a very large showroom, offices and a maintenance and repair shop.

Within its showroom, the company offers for sale a wide range of recreational sports vehicles, both new and used. Snowmobiles, four-stroke ribs, all-terrain vehicles (ATVs), motorcycles, etc. are on display. The company also offers accessories for these recreational motor sports vehicles (tires, windshields, contour racks, off-road accessories, ATV doors, etc.).

In addition, there is a textile department, for adults and children, of different brands where hoodies, T-shirts, jackets/coats, "monosuits" and winter boots are sold, etc. And to complete its range of products, the dealer also offers leisure items such as boards, backpacks, motorcycle helmets and camping chairs, etc.

In addition to the sales, the company also provides its customers with maintenance and repair services for their motorized recreational vehicle(s).

Moreover, the company benefits from a team of employees who are experts and experienced in their field, and many of whom have been with the company for more than 30 years.

Over the years, the company has built its reputation and consolidated a loyal clientele thanks to its professionalism. To be closer to its customers, the company has invested in an ergonomic website that presents its activities, products and services. In addition, it is very active on social networks, regularly publishing its news to its community.

The expertise of this dealer has enabled him to receive numerous awards in the field of activity in which he works.

Many development opportunities could be considered by the future buyer. Thanks to the space available in the showroom, it is possible to complete the current offer and why not consider new services. The future owner could also develop new associations with new brands.
